Member Recommended Workshops

Please note that TDCC can take no responsibility for your experience on any workshop described here.

Organisation (Click to go to website)	**Description**	**Suggested by**	**Attendee's Comments**
Timeline Events	Provides many different genres of events so you need to browse the web site	Alvin	I've done many different events and have enjoyed all of them. They do provide lighting where required and some guidance, and set up a few shots. However, you are free to make suggestions and ask for particular arrangements to photograph. The one downside is that if one of their events does not show a limit on the number of photographers (eg Vulcan Photoshoot at Night) it can be rather crowded.
Leading Line Events	A sister company to the above and they share photographers	Alvin	Some of the events I've done above were probably Leading Lines rather than Timeline Events
Creativity Hub	Photoshoots of Models in different locations with excellent support on the day	Alvin	I've done 2 photoshoots, learnt a lot from both and got some great shots. They provide the Models, do their hair, makeup and help with costumes. They provide lighting and guidance on how to use it, and advice with camera settings and composition. London Camera Exchange are there to buy any second hand kit you may have and a major camera manufacturer such as Canon or Nikon is there and will loan you lenses and/or camera bodies for the day.
Justin Minns	Professional Photographer, Based in East Anglia he provides landscape photoshoots, often at sunrise or sunset, sometimes with Infra Red. Also workshops across Europe	Alvin	I have done 4 shoots with Justin and enjoyed every one; he typically takes a group of 5-6 people, although Steven Slater and I organized a private photoshoot with him. He also gave me Zoom lessons on Lightroom and Photoshop.

Paul Mitchell	Specialises in Woodland Photography	Alvin & Peter	In Autumn runs workshops at Burnham Beeches and Severnake, also offers workshops in Southern France. Really enjoyable and helpful – especially in understanding how to see the wood for trees
Nathan Horton	Provides Intensive workshops across India & the Far East	Peter	Without doubt the most exciting, tiring and productive workshop I have ever experienced. I spent two weeks with him an a few others from around the World in Rajhasthan. He is inspiring and original.
Selaru Ovidiu	Masterclass black & white street in Various Cities across Europe. He is Famous for his Mono images	Peter & Linda	Learnt a lot about the power of using extreme settings to create effects and what makes good Street Photography. He is an unusual workshop leader who leads by example
Light & Land	Workshop specialists providing one day and multi day workshops all over the World. Headed by Charlie Waite	Peter & others	I have been on workshops with this organisation to: Puglia, Dolomites and Romania. They use different professional photographers with knowledge of the areas to lead the workshops. Very wide range of places and durations. Their 1 day events in UK are good value.
Image Seen	Similar to Light & Land – led by Sarah Howard	Many	Popular with members they provide high quality workshops across UK and Europe.
Bob Brind-Surch	British Wildlife Photographer who runs short workshops in UK and Abroad	Sheila	I went of a workshop to shoot Harvest Mice. Learnt about cute compositions and the use of fast shutter speed
Tabitha Boydell	Organized photoshoots at interesting locations with Models	Adrian	Typically 3 photographers with 1 Model on 1 set for 35 minutes, you can direct the Model yourself.
Simon Turnbull	Weekend Workshops and Ashridge Workshops	Many	Simon used to be in the club. He often gives workshops in Ashridge as well as the occasional weekend workshop such as in the Peak District or Lake District where he was brought up..

Daniel Kordan	Photo adventures in various exotic locations.	Linda	Fabulous but expensive adventures to extreme places.
Creative Photo Adventures	Various Workshops in UK, Europe and further afield	Linda	Good range with reasonable prices
Landscape Locations	Specialises in Landscape Photography in various Countries	Linda	Good range with reasonable prices
Aspect 2i	Specialises in Landscape Photography in various Countries	Anton	
Wild Photography Holidays	Photographic tours of Iceland, Norway, Greenland and other locations	Anton	

If you have been on any workshops that you would recommend to other members, please send us the details.
